

ACRYLIC MIRROR

CONVEX SECURITY/SAFETY MIRROR

Convex security/safety mirror is a curved mirror bulging outwards to assist in blind-spot surveillance with a vision angle up to 110°.

FEATURES

- Silver acrylic, more resistant than glass.
- 3.2mm painted masonite coated backing board.
- Powder coated metal universal bracket suitable for both wall and pole mounting.
- Rubber trim surround the circumference of the mirror making it suitable for all weather conditions.
- Vision angle of up to 110°.
- For use in both indoor and outdoor applications.
- Easy to clean by using warm soapy water and a soft cloth.
- Individually bubble wrapped and packed in a box.

APPLICATIONS

Ideal for use in blind corners, driver awareness, warehousing, parking and general security.

NOTE

It is recommended that the backing boards are sealed (every 3 - 6 months with wood varnish) for use in extremely harsh weather conditions.
